DIY Yarn Wrapped Christmas Tree

TIME TO COMPLETE
20 to 30 min.

SKILL LEVEL
Beginner

By Oriental Trading Company

MATERIALS

- Foam cone (small, medium, or large)
- Acrylic paint (color to match your yarn)
- Paintbrush
- Yarn (chunky or thin, any color you like)
- Hot glue gun and glue sticks (or craft glue)
- Pearl gems
- Small wooden stars
- Tiny ornaments (optional)
- Scissors

INSTRUCTIONS

STEP 1

Start by painting your foam cone in a color that matches your yarn. This little trick makes sure that if any spots peek through, they'll blend right in and keep your tree looking polished. Let the paint dry completely before moving on to the next step.

STEP 2

Now grab your yarn and start wrapping it around the cone from the bottom up. Add a dab ofglue every few inches to keep the yarn secure as you go. You can choose chunky yarn for a cozy, textured look or thinner yarn for a sleek, modern style. Take your time and keep the wraps snug and even for the best result.

STEP 3

Once your cone is fully wrapped, it's time to decorate! Add embellishments like pearl gems, small wooden stars, or even tiny ornaments for a festive touch. Finally, stack a few wooden stars together to create a layered topper and glue it to the top of your tree for the perfect finishing detail.

FUN TIP

Want to make your display even more eye-catching? Try creating trees in different sizes by using small, medium, and large foam cones. You can also mix and match yarn colors—think classic holiday reds and greens, cozy neutrals, or even bright, bold hues for a playful twist!
